

Scientific Program ISVD

Directors: N. Labropoulos, D. Kontothanassis

Scientific Secretariat: G. Camporese, A. Gasparis

Thursday, 08 October 2009

10:30 Pre-registration

14:00 - 14:30 Opening

Welcome Introduction: N. Labropoulos, D. Kontothanassis

Future perspectives of technology in medicine -

L. Kontothanassis

Art and color - The Italian Finesse - P. Govoni

DIAGNOSTIC SESSION

Moderators: N. Labropoulos, G. Camporese

14:30 - 14:37 How to read vascular ultrasound - N. Labropoulos

14:38 - 14:45 Recommended standards for vascular laboratory reports - J. Blebea

14:46 - 14:53 Assessment of the carotid and the vertebral arteries - N. Liasis

14:54 - 15:01 Imaging for thoracic outlet syndrome - G. Camporese

15:02 - 15:09 Follow up of aortic endografts - N. Labropoulos

15:10 - 15:17 Diagnosis of renovascular hypertension -

A. Mansour

15:18 - 15:25 Detection of arterial stenosis and obstruction - A.D. Giannoukas

15:26 - 15:33 Assessment of dialysis access - J. Raffetto

15:33 - 15:50 Discussion

15:50 - 16:05 Coffee Break

16:06 - 16:13 Acute and chronic vein thrombosis - M. Meissner

16:14 - 16:21 Recurrent vein thrombosis - G. Camporese

16:22 - 16:29 Detection of venous obstruction - P. Neglen

16:30 - 16:37 Evaluation of venous reflux - K. Delis

16:38 - 16:45 3D imaging of the venous system by CT - J.F. Uhl

16:46 - 16:53 Preoperative vein mapping - S. Kang

16:54 - 17:01 Ultrasound guided venous procedures - A. Gasparis

17:02 - 17:09 Ultrasound guided arterial procedures - A. Tassiopoulos

17:10 - 17:30 Discussion

17:30 - 18:30 Live cases with ultrasound (N. Labropoulos, N. Liasis, G. Camporese)

Friday, 09 October 2009

CHRONIC VENOUS DISEASE I

Moderators: A. H. Davies, Wittens

08:30 - 08:37 Anatomic variations pertinent to venous treatment - A. Caggiati

08:38 - 08:45 Pathophysiology of chronic venous disease - J. Raffetto

08:46 - 08:53 Progression of chronic venous disease - E. Rabe

08:54 - 09:01 Association of signs and symptoms with venous disease - J. Raffetto

09:02 - 09:09 Elastic compression for chronic venous disease - H. Partsch

09:10 - 09:17 Medical therapy for chronic venous disease - A. Jawien

09:18 - 09:25 Ultrasound-guided sclerotherapy - A. Cavezzi

09:25 - 09:32 Treatment of telangiectasias and reticular veins - T. Proebstle

09:33 - 09:40 Benefits from treating early chronic venous disease - P. Pittaluga

09:41 - 09:48 Optimizing care after venous interventions - M. Lugli

09:49 - 09:56 Outcomes in the treatment of chronic venous disease - A. H. Davies

09:56 - 10:30 Live cases ultrasound scanning and discussion

10:30 - 10:45 Coffee Break

CHRONIC VENOUS DISEASE II

Moderators: D. Kontothanassis, T. Proebstle

10:46 - 10:53 Thermal energy delivery on the venous wall - J.L. Gerard

10:54 - 11:01 Endovenous Laser ablation - N. Morrison

11:02 - 11:09 Endovenous Radiofrequency ablation - T. Proebstle

11:10 - 11:30 Endovenous Laser ablation of the small saphenous vein - D. Kontothanassis

11:31 - 11:38 Results from the Italian Registry of Closure Fast - R. Di Mitri

11:39 - 11:46 Treatment of recurrent varicose veins - M. Perrin

11:47 - 12:08 Video presentation of endovenous procedures - D. Kontothanassis, N. Labropoulos, N. Morrison, T. Proebstle

12:08 - 12:20 Discussion

DEEP VEIN RECONSTRUCTION

Moderators: O. Maleti, M. Perrin

12:21 - 12:28 Deep vein reconstruction - O. Maleti

12:29 - 12:36 Central venous reconstruction - C. Wittens

12:37 - 12:44 Endovenous treatment of chronic venous obstruction - P. Neglen

12:45 - 12:52 Management of popliteal venous aneurysms - M. Perrin

12:52 - 13:00 Discussion

13:00 - 14:00 Lunch

VENOUS THROMBOEMBOLIC DISEASE I

Moderators: P. Prandoni, R. Hull

14:00 - 14:07 Natural history of deep vein thrombosis - P. Prandoni

14:08 - 14:15 Evaluation of outpatients for VTE - E. Bernardi

14:16 - 14:23 How the patients with VTE should be followed-up? - M. Meissner

14:24 - 14:31 Current management of superficial vein thrombosis - G. Palareti

14:32 - 14:39 Thrombosis in unusual sites - N. Labropoulos

14:40 - 14:47 What should we measure during ACT in VTE? - R. Hull

14:48 - 15:05 Prevention of VTE - A. Nicolaidis

15:06 - 15:13 Management of VTE in pregnant patients - P. Simioni

15:13 - 15:25 Discussion

15:25 - 15:45 Coffee break

VENOUS THROMBOEMBOLIC DISEASE II

Moderators: P. Simioni, M. Meissner

- 15:45 - 15:52 Management of deep vein thrombosis - F. Verlato
15:53 - 16:00 Update on pharmacomechanical thrombolysis - A. Gasparis
16:01 - 16:08 Impact of thrombophilia on the management of VTE - P. Simioni
16:09 - 16:16 Treatment strategies for calf DVT - C. Becattini
16:17 - 16:24 Role of compression therapy in the acute DVT - H. Partsch
16:25 - 16:32 Use of IVC filters in VTE - T. Koelbel
16:33 - 16:40 Diagnosis and treatment of PE - R. Hull
16:41 - 16:48 New therapies for VTE - P. Prandoni
16:48 - 17:00 Discussion
17:00 - 18:30 October Satellite symposia
1)Mediolanum, 2) RFA Italian Register.

Saturday, 10 October 2009

CEREBROVASCULAR DISEASE

Moderators: A. Nicolaides, M. Veller

- 08:00 - 08:07 Natural history of asymptomatic carotid stenosis - A. Nicolaides
08:08 - 08:15 Timing of carotid intervention - M. Veller
08:16 - 08:23 Advancements and new technology in carotid stenting - A. Mansour
08:24 - 08:31 Is cerebral protection needed during carotid PTA and stenting? - C. Setacci
08:32 - 08:39 Carotid stenting versus endarterectomy - M. Matsagas
08:40 - 08:47 Follow-up of carotid procedures; when to reintervene? - A. Scuro
08:48 - 08:55 Treatment for carotid restenosis - S. Kang
08:56 - 09:03 Management of vertebrobasilar disease - M. Morasch
09:03 - 09:45 Live scanning and discussion - N. Labropoulos, N. Liasis, G. Camporese (carotid stenosis, follow up after stenting and endarterectomy)
09:45 - 10:00 Coffee Break

MANAGEMENT OF THORACIC AND ABDOMINAL ARTERIAL DISEASE

Moderators: M. Morasch, A. Mansour

- 10:00 - 10:07 Advances in aortic aneurysm imaging - N. Sakalichassan
10:08 - 10:15 New technology and progress in EVAR - A. Scuro
10:16 - 10:23 Endovascular treatment of ruptured aortic aneurysms - A. Mansour
10:24 - 10:31 Critical analysis of the long term data on EVAR - A. Bradbury
10:32 - 10:39 Percutaneous treatment of aortic aneurysms - M. Morasch
10:40 - 10:47 Management of TAAA - A. Mansour
10:48 - 10:55 Challenges of TEVAR - F. Grego
10:56 - 11:03 Interventions for aortic arch vessels - T. Koelbel
11:04 - 11:11 Treatment of aortic dissection - F. Grego
11:11 - 11:30 Discussion

VISCERAL AND ILIOFEMORAL DISEASE

Moderators: J. Blebea, A.K. Tassiopoulos

- 11:30 - 11:37 Interventions for renovascular hypertension - K. Delis
11:38 - 11:45 Management of chronic mesenteric ischemia - J. Blebea
11:46 - 11:53 Treatment of aortic stenosis - M. Morasch
11:54 - 12:01 Options for treating combined aortic and iliac disease - F. Grego
12:02 - 12:09 Endovascular techniques for long obstruction - A.K. Tassiopoulos
12:10 - 12:17 Role of endarterectomy - M. Veller
12:18 - 12:25 Tips and tricks for complex lesions - A. Mansour
12:26 - 12:32 Management of false aneurysms - S. Kang
12:32 - 13:00 Discussion
13:00 - 14:00 Lunch
14:00 - 14:20 Keynote Lecture: New horizons on plaque morphology - A.N. Nicolaides

LOWER EXTREMITY ATHEROSCLEROTIC DISEASE

Moderators: A. Bradbury, F. Grego

- 14:20 - 14:27 Conservative treatment of CLI; when, why and how? - R. Martini
14:28 - 14:35 Endothelial function and physical training in patients with intermittent claudication - G.M. Andreozzi
14:36 - 14:43 Do the statins worth their money? - A. Zambon
14:44 - 14:51 Endovascular treatment of long SFA lesions - A.D. Giannoukas
14:52 - 14:59 Vein grafts for lower limb ischemia - J. Blebea
15:00 - 15:07 Prosthetic grafts in patients with disadvantaged veins - A.K. Tassiopoulos
15:08 - 15:15 Treatment of infrainguinal graft stenosis - A.H. Davies
15:16 - 15:23 Management of infrapopliteal disease in critical limb ischemia - J. Blebea
15:24 - 15:31 Follow-up of lower limb interventions - N. Labropoulos
15:31 - 15:45 Discussion
15:45 - 16:00 Coffee break

Multidisciplinary approach

Moderators: C. Wittens, S. Kang

- 16:00 - 16:07 The role of modern vascular center - A. Tassiopoulos
16:08 - 16:15 How to run a wound care center - S. Kang
16:16 - 16:23 Dressings and growth factors for wound healing - A. Gasparis
16:24 - 16:31 Management of venous ulcers - C. Wittens
16:31 - 16:38 Developing a successful dialysis access program - N. Labropoulos
16:39 - 16:46 Preoperative evaluation for dialysis access - J. Blebea
16:47 - 16:54 Follow-up and maintenance of access in dialysis patients - A.P. Gasparis
16:55 - 17:10 Discussion
Meeting Adjourn (Next year announcement) - N. Labropoulos, D. Kontothanassis
